Finishes

Many finishes are available with this design, we've list below the three most popular. However, there are other specialist finishes available, for more information on these please contact the Logic technical team.

Timber Species

Iroko

Material: Finish: Durability: Country of Origin: Forest Type: Iroko - Genus Milicia Natural Class 2 Africa Virgin Rain Forest

Douglas-Fir

Material: Finish: Durability: Country of Origin: Forest Type: Douglas-Fir - Pseudotsuga Menziesii Natural Class 3 United Kingdom Plantation

Oak

Material:Oak - Quercus RoburFinish:NaturalDurability:Class 2Country of Origin:United KingdomForest Type:Plantation / Secondary Growth

As wood is a natural grown material, there will be variations in colour, grain structure, knots and moisture content. This all creates the beauty of this versatile material. Some timbers have a greater or lesser concentration of naturally occuring Quertannic acids, please refer to the O&M manual for handling of such.

Lighting

Whilst there is three lighting designs for planter edging, introducing integrated seating gives a fourth option.
